### "Drift On"

Visit "[Drift On](#)" on [MotoLyrics.com](https://MotoLyrics.com)

If the waters cool I might just swim,  
If the sun shines right I might be here all day.  
I drift away, in a sunken state  
I'm busy lappin' it up, I might be here all day.

With the tides, and their little secrets,  
Whispering me to sleep.  
Would you take away my weakness,  
Drift on, drift on.

If the waters cool, I might just swim  
If the sun shines right I might be here all day  
I drift away, in a sunken state  
I'm busy lappin' it up, I might be here all day

With the ripples and their stories  
Cooking up a storm  
Will you carry all my weakness,  
Drift on, drift on.

If the waters cool, I might just swim  
I drift away in a sunken state  
I'm busy lappin' it up, I might be here all day.

With the under current lurking,  
Watching sideways from afar,  
Could you take away my weakness  
I'm not that strong.  
You see I feel so heavy without you  
And you say;

Drift on, drift on, drift on.  
Drift on, mm hmm stay strong,  
Drift on.

If the waters cool I might just swim
