Ain't that hard to live alone  
Ain't that far to be from home  
Cause gravity can never pull me down  
Calculate the days I've spent proscinating  
God knows when  
Grow in silence feverish or flu  
And again it's me and myself and I  
Fall on me  
Stand aside trying to keep my cool  
Stand in line feeling like a fool  
It's getting late now get back in your bed  
Then remembered a what my daddy said  
What' cha gonna be  
And again it's me and myself and I.....  
Stay with me
