"Make It Right"

Visit "[Make It Right](#)" on MotoLyrics.com

You said it all with no rhyme
You were the devil but you were the one
No one knows if it's in our fight
But we'll make it right, we'll make it right
You burned your mind, burned your life
Still no one knows what you've got
You act so bored, 17 is like doing time
What you say is we'll make it right, make it right
Do you wanna know, do you wanna know what I hide
Do you wanna know, do you wanna know what I hide
Do you wanna know, do you wanna know what I hide
We'll make it right, make it right...
Yo, Sad and lonely
Rage and Pain
Sacrifice your days
We know they don't care...
Make it right...make it right
