Go Baby, go baby, go
If you just wanna spend the night
Go Baby, go baby, go
If you don't see our future bright

The night has come and gone
We could go on and on
After we're talkin' til the sun comes up
The way your holding me
There is a lot you see
There's a connection that I want so much
But if your only lookin' for fun
I gotta tell you this can not go on
(Chorus)
Go Baby, go baby, go
If you just wanna spend the night
Go Baby, go baby, go
If you don't see our future bright
Cuz' if you believe this is love and your ready to stay
Stay baby, stay

I could get lost in you
Thats what I wanna do
Would I be crazy if I told you so
Just wanna lie secure but i gotta know for sure
Your heart is ready and you understand
If you don't know that you feel it too
Then I'm not ready to be here with you

Chorus
As good as this may feel
I need to know it's real
So tell me baby what you see....
for you and me

Chorus repeats twice along with:
Go, go you cannot spend the night
Go, go if your not in my life
Go, go you cannot see it bright
Go, go I just wanna make it right
