If you should call my name
I will always hear you
There wherever you are
If you reach out your hand
Mine will always find you
I will be there
There, no matter how far
Nothing can stop my love
If you need me around
No, oh
Nothing can hold me back
Or hold me, hold me down
Na na no, no no
(Chorus)
A hundred oceans
Couldn't keep me from you
(Couldn't keep me baby)
Never keep me from you
A thousand mountains
There would just be no use
(Never stop me baby)
I'd still be there for you
I'd still get to you
Somehow, someway
(Nothing can stop me)
Not even a hundred oceans
If you should miss my touch
And your nights are lonely
I will come to your side
Anywhere you can go, you can
Always find me
I will be there
There's no river too wide
Nothing can stop my love
No fire, no wind, no rain
Nothing can slow me down
Or block my, block my way
No no no
(Chorus)

A million miles come between us
I don't care

I'd walk them all
If you need me to be
Beside you
I'd do anything I had to do
Be there for you
Whenever you call!
(chorus

I'd walk them all
If you need me to be
Beside you
I'd do anything I had to do
Be there for you
Whenever you call!
