When I feel blue, I think of you, cause you're true,  
Wherever you are.  
Near or far, you still are my shining star.  
Sometimes it's mad, things get bad, and I'm sad,  
Wherever you are,  
there is light, by my side I feel alright.

Because our love is big, bigger then the two of us.  
And words can not describe, how I miss you so much.

I feel love in your arms, and I feel love when im with  
you.  
I feel love in your eyes, wherever you may be.

You make me high; I can fly, touch the sky,  
Wherever you are.  
I feel free in ecstasy, just you and me.  
You save my day, pave the way, and you stay,  
Wherever you are.  
In my heart from the start we'll never part.

Because our love is big, bigger then the two of us.  
And words can not describe, how I miss you so much.

I feel love in your arms (in your arms), and I feel love  
when im with you.  
I feel love in your eyes, wherever you may be (wherever  
you may be)  
(Wherever you are...)  
(I feel loveÂ...)

La la la la la la la la la la la la la la laÂ...

(Wherever you areÂ...)
