Thought i was the only one guess i was mistaken you  
treated me like a queen i  
Never ever fel you'd betray me she is your girl and iam  
your girl how could  
This be you were using me to cheat on her

Chrous:

I'd rather be alone than being in love with you i'd sleep  
out in the cold  
Before lying in bed with you I'd take the lonely road  
before taking any rides  
With you I'd rather be alone than being in love with you

All the times you spent the night with your head laying  
beside me and just when  
I was waking into the morning light a note instead  
surprised me she is your  
Fool but i am no fool and i was alone and all the thigs  
you said they werent  
True

Chrous:4x

I'd rather be alone than being in love with you i'd sleep  
out in the cold  
Before lying in bed with you I'd take the lonely road  
before taking any rides  
With you I'd rather be alone than being in love with you  
(ooohhhooohhh all the  
Things you said they werent true)
