(PT Lauren , K-Dee)

Here's susie , little susie with her dimples ,
her curls and her jewels

Everyone must like her , because relish rules

Wake her up and she will surely make it worth your
while

Check her out and you're a bonus for this glumsy child

This snowy,snowy white-me

Hates naughty,naughty girls like you

You'll see her as I walk under neon light

Fuck , she's always right , you'll see

(though it's hard to see)

Now whatcha telling me

(both of these guys are me)

Are you all too free

To reconcile and understand what they see,

That they're really me

Jimmy , little Jimmy is too big and he's bold but not
cruel

He's just curing me with his every single rule

From all the good things the bad things from mtv

I don't react at all , hip-hip-a-fucking-hurray

The yippikaiaaeou-thing's too shy

But not this tragic thing called an eye for an eye

You'll see him as I walk under neonlight

Fuck , he's always right , you'll see
