I had a beautiful dream of you
A ray of light in the morning dew
In the middle of the city
In the lush oasis of love and harmony
All kinds of races
All in a line of frequency around me
With butterflies in strawberry fields
And we're flying above the trees
Beneath the stars in indescribable peace
I finally found the place to be
A house of love just right for you and me
I've finally found the friends I need
I can't believe it

This must be love
This feeling we share (me and you hand in hand,
through good and bad)
This must be Love (powerly love)
You know it's true, I'm dreaming of you
This must be Love (This must be Love)
This feeling we share (forever)
This must be Love
With every heartbeat I'll be with you

(Chorus)
Everyday I dream of you
You know my love is true
I hope you feel it too, yeah yeah

What I feel for you, aaah, it's unexplainable
These feelings I have inside are incontainable
I wanna show you how much I care
Hug and kiss you everywhere
Deep down inside I know you feel the same
You tell your friends about me when you say my name
I see a smile spread across your face
You where sent from heaven, your my saving grace

I finally found the place to be
A house of love just right for you and me
I've finally found the friends I need
I can't believe it

This must be love
This feeling we share
This must be Love (this must be love)
With every heartbeat I'll be with you
Through good times and bad times
I'll be by your side
Happy in sad times
Day and night
Your my sweet sensation, my everything
I can't believe it's true

This must be love
This feeling we share
This must be Love (this must be love)
With every heartbeat I'll be with you
Chorus X3

This must be love
With every heartbeat I'll be with you
This must be Love
