(PT Lauren , Mr. Mike)

To hate all the birds and dolls in me is good for
brotherhood

But checking out what you cannot see can never be
good

Burning the flag is selling out though fun on mondays

Summer's here anyway , so fuck the spring

Look at these guys in the form of god , they really want
you

Macho guys can't feel real odd , they don't really have
to

For miracles that won't crack in five they got all the
answers

Something must give

Same love for memories , same jerk for love stories

But don't smile , kill for glory , true men can't feel sorry

They touch you while you sleep

Rape you while you don't

They change you and everything's too real

And they want you to feel like them boys of steel

While hiding out from those crazy jerks that want my
body

I'm learning about the world and the way that it works,

I'm getting

muddy

I turn myself in for a peace of mind : I wasn't caught ,
see

And now that I got these shields : Don't fuck with me
