All that's sacred, all that's glowing in your head
All that's purified is all that you must take to bed
With sorry means and your love from above
Hell , sorry means never work
But , if you take my time and make me to be sober
Then you will see that there is nothing to believe
But summary
What is sacred , now what is everything in red
Who is patronized , when there's a hole in your head
Though sugar-eyed from the start , they'll tear apart
Can't sugar-eye everyone
But , if you find your way and make me to believe it

Then you will see , that there is nothing to conceive
But summary
Take my guts and watch me as I crawl
Do you understand at all
That you can burn me down right here
And determine with your fear
But for the sake of all that's good
And for the cause of brotherhood
Fill the emptiness in me
My summary
