You've never been very good at
Syncing my actions with my words
I can talk a big game
Put on a show
Paint a smile wide
But you'll never know

That all this time I've just been wasting away
Thinking somehow I'm needing a change
I need a sign or just a sense of relief
Cause I don't wanna believe

I'm getting in over my head
Loves got it's arms around my neck
You'll say I'm fine, but am I getting better?
Is there still time to pull it all together

I'm giving more than I have
You keep on taking but there's nothing left
When we talk about it you put on a show
You say I'm lost without you
I've gotta know

I need sign or just a sense of relief
Cause I don't wanna believe

I'm getting in over my head
Loves got it's arms around my neck
You say I'm fine, (but) am I getting better?
Is there still time to pull it all together?
What you say won't change won't change a thing
So I gotta keep on waiting
Yeah I'm getting better
Just need some time to pull it all together

What's love worth fighting for?
If you can't be, you know you can't believe it
If you can't believe in it anymore
