I'm trying to fight it but it's killing me  
The way you're looking straight through me  
Like I'm just a stranger no way to make you see  
That I'm everything you need  
And you're so unsure isn't love just what you're asking  
for  
But if you don't believe then how do I make you see  
That I'm everything you need

And it's hard to carry on  
When I'm weak but love is strong  
So hear me don't bury my heart in the ground

If only you could be here  
Where feelings are the same as mine  
You'd tell me you love me your thinking of me  
All the time  
And know that I will be here waiting patiently  
Come next to me I'll never leave  
I'm waiting here for you to care

One look could define it but it's hard to see  
When you're blinded by the jealousy  
Of what your afraid of don't be afraid of me  
I am everything you need
