Show me what lies just beyond my eyes  
Would you take me to the

world were my spirit flies  
Tell me is it really fact or a  
pack of lies

Show me whats beyond my eyes? Why don't you (3x)  
When I open

my eyes I see the blood on the walls  
Neck and back start to contract

I'm about to fall  
When I open my eyes I only try to hide  
the pain Cuz

legally, physically, mentally I'm insane  
When I close my eyes

everything goes black  
My heart beat skips rythems like  
a heart

attack I'm and insomniac with a nose bleed  
You can ask most

around you bitch he knows me  
When I open my eyes  
I'm hopin

everybody dies  
Fishin with the consience when the  
carnival arives I

open my eyes, the dead will resurect  
And we gonna hit you bitches

with problems and slit necks  
When I close my eyes my  
bodies

paralized Engulfed into swarms by the loard of the flies  
My eyes stay

closed, my tempurature falls  
My bed starts shakin  
blood drippin

from the walls When I open my eyes another day  
without a friend

Sick and tired, crazy and boared when will it end?  
When I open my

eyes I wish I could glue 'em shut But then I couldn't see  
my

cigarettes and I'd be fucked When I close my eyes I  
see how

everybody dies Hangin from the rope with fear in their  
eyes Chokin

on the lies and the blood and sweat But don't leave  
now you ain't

seen shit yet! Show me what lies just beyond my eyes  
Would you

take me to the world were my spirit flies Tell me is it  
really fact or a

pack of lies Show me whats beyond my eyes? Why  
don't you (3x)

When I open my eyes I can feel my ears bleed Nerves  
keep shakin

my hand wishin me god splees When I open my eyes  
I'm in a trance

My only thought it rockin the dead until they dance  
When I close my

eyes I see hell turn to ice Starvin little children feedin  
on the rancid

mice My eyes stay closed angels fall from the skies  
They said that it

rains everytime god cries When I open my eyes I see  
heaven on the

clouds All these people in the line but I can't hear a  
sound When I

open up my eyes I'm steady fallin out a grave  
Contacted by the beast

and flames and pure hate When I close my eyes the  
mirror goes

black A demon crawls through and tries to kill me with  
an axe He

chased me through the room untill I'm tired as fuck  
Then I come into

the corner now I'm shit outta luck! When I open my eyes  
I'm only

askin to be burried alive I can't escape the voices callin  
inside

When I open my eyes I know I'm better off dead Still  
lookin for a way

to cut off my own head When I close my eyes the devil  
then apears

And tells me he's been hiding in my closet for years My  
eyes stay

closed then he rambles on And hands me the lyrics to a  
DARK LOTUS

SONG! Show me what lies just beyond my eyes Would  
you take me to

the world were my spirit flies Tell me is it really fact or  
a pack of lies Show me whats beyond my eyes? Why  
don't you (repeat)
