[Violent J]

This life is tricky, mean and strange
you can only be sure about one thing, change
for worse or for better, maintain
catch wisdom, try to gain brains
In my life, I seen a lot come and go
Like a non stop fashion show
Very little shit lasts forever
and just because shit blue, it ain't better
I wanna be with Shaggy and Billy, my dogs for life
And I pray that I'll never change every night
I said never again, and then I did it, and did it again
I can't pretend, I won't lie, yo I've lost control
and it's a scary endeavor, I got it together
But it took forever, Now I want forever to be just like
this
the shit I wish
that's right
yeah

JUGGALOS!

[Geto Boys]

Relax yourself, don't you be so cold
death around the corner y'all but he don't know
momma tell him go to church but he won't go
and instead of trying to ? He won't go
Dope man tell me what the fuck are they yelling
Got a mad flab, now his pockets start swelling
up early in the morning trying to hit that lick
wanna fuck her all night, you gotta protect that dick
heard he that shit, smoke that bowl
chase that dragon homey, sell that soul
the fact of the matter is the world's so cold
seems its going good to yo homeboy ?
So no more late night bentley creeps
Smoking dro, switching freaks
Should've known one day this shit would ?
Fuck the south cause this the coast
Forever
we be bringing you
forever
we bringing you
forever

forever

[Shaggy 2 Dope]

Truth is happiness is in your own head
how you perceive shit, believe it is
it's all you, some of us have rules
can't help it, living in a bad mood
shit hurts, then it only gets worse
they don't get it, not even the experts
but trust me, it won't last forever
you hit bottom, shit finally gets better
some don't need bank to laugh
and live on the bright side, whatever the path
when you hit 40 or 50, that's just half
enjoy youth cause that's what you don't get back
forever, revolves around you
that's your time, I'm living in mine too
How much positivity are you blind to?
you only live once I'll remind you
yeah, HA

fo sho

forever

[Geto Boys]

1, 2, 3, 4 where you mothafucka ? At the door
with a 4 4 baby, my homey got a 3.80
I do it for myself and my kids and my old lady
don't be looking all greedy, trying to play us cheap
we just tryna figure out a way to eat
they say the blacks and the whites can't get along
but ICP and Ghetto Boys just did a song
man I work hard, so I play hard
Dick stay hard, when I'm in my broad
there's a struggle everyday, gotta play the card
anyway the wind blows, Imma still play the ?
Even when im at ?

When my righteous side?

comes forever like my life expired
they say I'm not a lyricist, they can talk that shit
but the rhyme that I spit gon last forever
we on this forever

that's right

forever

father forgive us

forgive us

[Violent J]

none of that good shit lasts forever
but you just might like the new changes better
It's funny how we adapt and keep it together
as the months roll by, seasons and weather

[Shaggy 2 Dope]

But when it all shuts off- the death pop!

And that'll be the day your forever will stop

until then we experience these emotions
with pink sky, high
and lows as deep as oceans

[Violent J]

I wanna see you and me last forever
Loop this life up and end it never
and live through the ages, the lows, the stages
and never let them close the pages

[Shaggy 2 Dope]

To find peace of mind is impossible
forever is plagued with obstacles
so we make the best of good times
we stuck on play, we can't rewind
we just wanna see us all together, after forever, off in
shangri-la

we just wanna see us all together, after forever, off in
shangri-la

we just wanna see us all together, after forever, off in
shangri-la

we just wanna see us all together, after forever, off in
shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

we just wanna see us all together, after forever, off in
shangri-la

we just wanna see us all together, after forever, off in
shangri-la

we just wanna see us all together, after forever, off in
shangri-la

we just wanna see us all together, after forever, off in
shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

off in shangri-la

THE DEATH POP!
