Hello, Hi I'm Shaggs

I don't know, maybe you heard of me

The Southwest Strangla

That one guy from icp

No?

Well, it's cool then you don't know what to expect

Allow me to extend my hand

In friendship to shake your fuckin' neck

As if you don't know, well you don't gotta clue

2dope, maniac killa from dark lotus crew

Oh shit damn, lemme quit chokin' ya

Sike, UUhh... uhh... ahhhahaha

I need a cigarette before I go ballistic

Statictics of my mind frame

Explains when I'm insane

I'm twiztid, branded

With the mark or the axe

A minor relapse and all I wanna do is split backs

Biaatch

I'm a maniac

But, you gotta understand that a

I can't control my hands and a

I'll love ta choke you if I can and a

Never once

Nowhere in my mind as I was sane

Ever since I remember, kill is just a game

[X4]

I'm a maniac killa, blood gets spilled

See me on the streets bitch, don't get killed

My mind is on my axe and my axe is on my side

Who wanna die?

Who wanna die?

I'm a maniac killa, blood gets spilled

A maniac killa, don't get killed

I'm a maniac killa, blood gets spilled

A maniac killa, don't get killed

I be the maniac K-I double L-A

I slit their fuckin' throats and have

Sex with all the bodies, I'm a retard

People call me special though

I keep my victims eyelids

In a mennilla office envelopes

I split you like a cantalope

To see what's on your mind

Smokin' trees, keep me fine

Well at least most of the time

Till I'm on your front lawn
Waitin' in the cold, the lights on
But don't look like nobody home
At last I come creepin' through darkness
Missin' this dark and take out any carcass
Dumpin' out my victims
A couple suckas playin' dub with they gases
Nobody else ghetto path
Huh? muthafucka, give up your bread
This is blaze ya dead homie sickin' the head
I've been dead
I thought you knew, I'm a maniac killa
Psycho, thug, fillin' body bags on the daily whut?
[X4]
I'm a maniac killa, blood gets spilled
See me on the streets bitch, don't get killed
My mind is on my axe and my axe is on my side
Who wanna die?
Who wanna die?
