"The wicked clowns and Bushwick Bill are lost in space"

(Violent J)

The car broke down and she was like "Honey, get the
flash light"
Still one in the dash right?
Only cause it's late at night
And who knows
What's out there
She was right tho
Ain't gonna help with a light tho
People dying tonight
Cause yo this maniac is, out there
I'm hanging like a possum
Murder tricks, I got some
Spot them
Look come around to the bottom
And slaughter them, out there
His boo was locked up in the car
On the phone and tripping hard
Screaming
Fuck that bitch was scurred
There's a killer out there
Cut that crying shit off
I cut
You die
I get off
I'm crawling up on the car
Trying to rip the moon roof lid off, out there
Bitch turned the wipers on
Hazard lights and blew the horn
I smashed with my axe, and pulled her to the lawn, out
there
She kicked me hard, to the grill
With one of them, Doc Martin heels
Murderas, you know how that feels
Your lip be out there
Time to die
Close my eyes
Swung and felt a thump
I done spilt her head in half like a tree stump, out there

(Chorus)

Don't you dare go out there, ain't no telling what lies
out there

Don't you dare go out there, ain't no telling what can
happen

Don't you dare go out there, ain't no telling what lies
out there

Don't you dare go out there, late night killas might be
stabbing

(Shaggy 2 Dope)

Lights on in the house

But it's dark outside

You can even close one eye

Look bitch, I'm out there

Camp fire lit

Boy Scout meeting's they talk of me

Even they leaders got memories of me, I'm out there

Forensic scientists try to finger me out

But I'm too quick for their Sheriff's stupid asses

I'm still out there

Pull up all your road blocks

I'm running them them's in my socks

Silently taken out all cops, one by one, I'm out there

Leave they bodies

In the street

Continue on my murder spree

They can believe all my heat

When I pull it out there

Break up into the Zoo

Dress up in a monkey suit

Sticking up families for they loot, my brain, is out there

Handy with an ice pick

Pull it out and use it good

In and out your temple

Blood is squirting all out there

I'm the urban legend you heard at your college dorm

Jump out and squeeze your vocal cords

When you out there

(Chorus)

Don't you dare go out there, ain't no telling what lies
out there

Don't you dare go out there, ain't no telling what can
happen

Don't you dare go out there, ain't no telling what lies
out there

Don't you dare go out there, late night killas might be
stabbing

(Bushwick Bill)

Some where out there a remnace of Bushwick
My mind loads clips at your block
And leave you stuck bitch
A psychopath
With a clasp and a black ski mask
Leave you in body bags
For a news flash
I might be small
But I got big balls
Write my name on the wall
With bloodstains after the brawl
Evil thoughts run deep in my brain
I'm sick and deranged
So picture the pain
Flowing in my veins
Yeah I'm sick
I'm sicker then Hitler
My gat spit streak mothafucking forbidden scriptures
Niggas run from a gun, forgetting they can't
I drag a Mossberg, cause it won't fit in my pants
I run up in your ride, it's parked and
It's darken
Jump out your glove compartment, sparking
The shit that I do, make many faint
Dead saint
Turn your blood into candy paint

(Chorus)

Don't you dare go out there, ain't no telling what lies
out there
Don't you dare go out there, ain't no telling what can
happen
Don't you dare go out there, ain't no telling what lies
out there
Don't you dare go out there, late night killas might be
stabbing
