What did I do? Tell me
Tell me, what did I do? Tell
me
Nothin!
I did nothin wrong!
Tell me
Nothin!
Look at
that guy over there,
he's so skinny
Probably suck suck
my dick for a penny
It's fuckin nasty -- what kinda bitch
does he get? The kind that smells like shit with a
scabbed lip
Pushin all that trash in a shopping cart
Musta
smoked himself into a retard
No shoes, thick-ass callus-
uped toes
Frozen boogers all up under his whiskey
nose
The mutha fucka's ass is probly molded shut,
heh
Bet he's got tadpoles livin out of his butt!
I fuckin
don't understand these people!
No kinda class --
somebody needs to beat they ass!
I wanna tell him, get
the fuckk off my block!
I wanna beat his face in with a
rock!
He's ain't good for shit
But bringin our property
down, draggin his funky as around
He's starvin,
sportin a pair of troop sweats
Hands dried up and
cracked like the sahara
Wantin everyone's
affection...
Wait a minute, that's me -- I'm lookin at
my own reflection.
Swing left, swing right
Swing left,
swing right
Swing left, swing right
Swing on and on
(I'm lookin at me own reflection)
Swing left, swing
right
Swing left, swing right (it's my own..)
Swing left,
swing right (my own reflection.)
Swing on and on and
..Where the fuck is this bitch? she makes me sick!
I'm
guessin right now she gotta mouth fulla dick!
I know
she fucks on me -- who needs proof? She prolly kisses
me with dick hairs on her tooth!
I bet she fucks people
in my own bed
He wears my slippers while she's givin
him head
Look what I do -- I get away with it!
What the
fuck makes me think she ain't never did it? (hm,
love)
Last time I beat her ass wasn't shit!
Fat lips ain't
nothin -- this time I'm breakin somethin!
She's gonna
learn not to give me any hassle!
I'm the king -- I make
the money -- I work at white castle!
I'm the one who...
failed in life.
I'm the one who takes it out on my
wife.
She don't cheat. who'm I tryin to fool? I shoulda
done this to myself long ago.
Swing left, swing
right
Swing left, swing right
Swing left, swing right
Swing
on and on (I shoulda done this long ago)
Swing left,
swing right
