Chillin' out when you're down by the bay
Hold on tight she's already on the way, hey hey
In one smooth shot you stroll down the line
Bags are packed with your jellyfish like spine
[CHORUS]
It's as hot as hell and nobody cares
Feeling lost when I'm already there
We all know there's nothing left to say
In the nick of time
You stole all my rhymes
We all know there's nothing left to say
Let's get dumb let's smoke and get high
More it takes to the time you're gonna fly
Two by two as they walk through the doot
Belly's pierced with the sounds of nevermore
[CHORUS]
We won't stand dead
We won't play dead
We won't stand dead
We won't play dead
[CHORUS]
