I like the sun, I like the sky,

I like all that surround me,
I love you and you love me, too.
Im too young to say that
Ill love my life forever,
But I know that tomorrow Ill say that again!

Ive got my freedom and Ive got my half too
Ive got you

Im having a good time,
Im living the best years of my life.
Im living next to you,
Im living the best years of my life

My eyes reflect my happiness

Your eyes reflect the same thing!
I love you and you love me, too

Ive got my freedom and Ive got my half too
Ive got you

Im having a good time,
Im living the best years of my life.
Im living next to you,
Im living the best years of my life

You must delete your sorrow,
You must delete you pain,
You can find your stability in a happy, beauty world.
