Tell me why it ended this way  
I thought you were here to stay  
People told me you weren't worth it  
But I took a chance anyway  
Everything has gone down hill  
And you're the one to blame  
Can't you see now things will never be the same

What you do is up to you  
But bare in mind I need this too  
Walk out the door find someone new  
But I'll still be here once this is through  
(x2)

All the times you said you needed me  
I was there for you  
Never thought that you'd deceive me  
But you fooled me too  
You told me sorry and I KNow you didn't mean it  
So many signs I was so blind I didn't see it

What you do it's up to you  
What you do it's up to you

What you do is up to you  
But bare in mind I need this too  
Walk out the door find someone new  
But I'll still be here once this is through  
(x2)

So many choices made  
Some of them I can't see through  
Something happened that day  
Where my heart got smashed in two

I can't take this no more  
You're the reason I'm like this  
So chewed up and torn  
I will never forget this

What you do is up to you  
But bare in mind I need this too

Walk out the door find someone new  
But I'll still be here once this is through

What you do is up to you (What you do)  
But bare in mind I need this too (It's up to you)  
Walk out the door find someone new (What you do)  
But I'll still be here once this is through (It's up to you)
