"You In My Arms"

Everything I see when I look in your eyes
It's all
Undescribably amazing and baby I realize
I realize

How much I care
How much I need you
And how much I never wanna leave you

'Cause maybe one day
We could go where we want to
And maybe one day
We could be where we like
I just wanna wake up next to you in the morning
And hold you in my arms when you sleep at night

All the things I feel every time our lips touch
And when I'm with you
I just want you to see that I love you so much
And can you see

How much I cares
How much I need you
And how much I never wanna leave you

'Cause maybe one day
We could go where we want to
And maybe one day
We could be where we like
I just wanna wake up next to you in the morning
And hold you in my arms when you sleep at night
(repeat x3)
