I've pushed up this hill, under this weight  
Covered my eyes, and now I'm falling  
For all my calluses, and my blistered hands  
I got nothing here to show  
And that's got me thinkin' I'll...

Go where You go, step when You step  
Move as You move  
I'll stand where You stand, speak when You speak, stay  
as You stay

Cause you got me thinkin'  
My blood sweat and tears she'd to impress  
You all in vain and that's overrated  
Forgetting myself I'll follow your lead  
And never look back, cause you got me thinkin'
