Save it for later
Save it for later
I need some time to think things over
Will you be around
Will you be around
When they come and track you down
Now that they have you
Now that they have you
They'll take advantage and nothing is new
Is it really hard to grasp
Is it really hard to grasp
They'll shoot you down and it will be your last

Take control now
While you have it
Turn and run from
Eternal darkness
Or you'll become
One of them and
I won't know you
Anymore but
It's a part of
Your decision
And I won't know you anymore now

Take control now
While you have it
Turn and run from
Eternal darkness
Or you'll become
One of them and
I won't know you
Anymore but
It's a part of
Your decision
And I won't know you anymore
