I'm on my way
Nowhere to go
I'll take my stand
Without your help
I hope you know
I'm gone for good
With a loving mind
And a broken heart

Leave me to rot
I'll decompose alone

Please help yourself
To my belongings
You're only safe
When I'm not around
Don't be afraid
I won't return
They never meant
That much to me

Trust me I'm gone
Consuming my pain

Take my life away
I'm just solemn
Take away my pride
I'm only blind
Don't mind a broken heart
Just leave my broken heart
Take my loving mind
But spare my broken heart

Just leave it behind
Just leave it behind
Trample it for all it's worth
Just leave it behind
Just leave it behind
There is no room left for words
