

## **Insidious Frustration "Let Alone"**

Visit "[Let Alone](#)" on MotoLyrics.com

You never wanted anything to do with me  
You never wanted anything to do with me  
Let alone  
Let alone please  
You try to say I'm nothing good for anything  
You try to say I'm nothing good for anything  
So let alone  
Let alone please  
I'm not perfect  
No-one can be  
I'm just human  
We all make mistakes

You never wanted anything to do with me  
You never wanted anything to do with me  
Let alone  
Let alone please  
You try to say I'm nothing good for anything  
You try to say I'm nothing good for anything  
So let alone  
Let alone please

I don't understand you  
I don't understand you  
I don't understand you  
I don't understand you
