"Strange Thing"

Visit "[Strange Thing](#)" on MotoLyrics.com

Strange thing happened one day
Someone thought they heard someone say
Gotta face new directions
Get new expectations
Strange thing happened one day
Someone thought they heard someone say
Get rid of complications
Free yourself from frustrations
Gotta control depression
Gotta control this depression

Strange thing happened today
I thought I heard somebody say
Gotta face new directions
Get new expectations
Strange thing happened today
I thought I heard somebody say

Get rid of complications
Free yourself from frustrations
Gotta control depression
Gotta control this depression

Strange things will happen one day
You think you hear somebody say
Gotta face new directions
Get new expectations
Strange thing will happen one day
You think you hear somebody say
Get rid of complications
Free yourself from your frustrations
Gotta control depression
Gotta gotta control this depression
