Where do I begin to tell a story of a child
Who can't survive a day without your kisses deep and
warm
Let me be your eyes, I'll tell you what I see
I see a light in youâ€¦

Will you sing with me my favourite song
'Cause now I know what it means
Will you sing with me forever this song
'Cause we're on the radio tonight

Give me one more chance to be the child that once I
was
Surrounded by your love until the age of twenty-one
Let me be a knife that cuts into your heart
I'll write in blood; "I love you"

Will you sing with me my favourite song
'Cause now I know what it means
Will you sing with me forever this song
'Cause we're on the radio tonight

Where do I begin to tell a story of a child
Who left his home and travelled far for kisses deep
and warm
Let me be a drug that shoots into your veins
And when you're high you singâ€¦

Will you sing with me my favourite song
'Cause now I know what it means
Will you sing with me forever this song
'Cause we're on the radio tonight
