It's okay I'll give you a ride
I'll take you to the moon if you don't wanna go back
home
Don't worry
You're safe inside my arms
Just don't let go until I say that it's okay to

But for now all I want is you to have the best time of
your life
A moment to shine (moment to shine)
With me...

Just don't forget to breathe
I know the stars look beautiful from up here
But there's so much more
I'll teach you how to fly
We'll fly around the world that I just drew for you now
With me inside
With me inside...

Or maybe we just can go to your house
We'll sit around and talk about our lives
And then I will tell you
What I love about your eyes
And tell you all those things to make you smile
You mean everything to me now
And I'll hold you close near to my heart
'Cause I fell in love with you

But for now... All I want is you to have the best time of
your life
A moment to shine (moment to shine)
With me

Just don't forget to breathe
I know that I am giving you my life right here
But there's so much more
You can teach me how to smile
We'll laugh out loud the stupid things that we've both
done
You're with me now!

With me now...
