[Pretext:

Again, silence. Forsaken. Outside the window the world remains the same.

A mouth - fucked race. Fear - fed parasites.

You despise a fool. Still hate the self achiever, just another agent of the method of the 'True' believer.

You bear the mask of guilt.

Another principle of your existence.

An everlasting race for grace, and you forget who you are.

You are an abortion!]

In god you trust

Another nation takes the fix

Holy fathers prophecy

And their holy bag of tricks

Down on your knees, and you beg for salvation

Another need made up just to think without a reason

You learn to love a god without doubt

Idiocy checks in, and brains check out

Doubt is denied!

Ongoing quest for your holy land, no questions asked,

You just sit at command

Your shepherds, they feed on the fear of God

So snared by fables, you kill your own kind... aeons

later, but still

you're so blind

The fear is fed

Your mouth open wide

You're all part of the sickness

The cyst just grow

Is this your freedom?

Just bow, just bow

You are denied

Mind-abortion

Down on you knees

Turned your hurt into a halo

Doped on fear, guilt and god

Who is this spook celestial fraud?

Satan's to blame for all your wrongs!?

And God is praised in your beloved songs!?

What a hoax... as you now realize

Turned away from all that was ugly
You saw only the light
But the dissemble line is now rolling
Idiocy proved it's right
Turned your sorrow into a servant
Your hurt to a halo

Mass exodus, driven by the Judas goat
The abattoir awaits!
There is no light in the end of the tunnel
Only your self-inflicted pain
Abandoned, aborted, denied
Alone, and left to die!
