You can look into my eyes
Without a word I'll tell you how
Just to live inside my mind...
You know things I might had at night
And I start dreaming of all

And then I'll fly away with you
To my wonderland to be with you
Sleep inside your arms
And waste my time
Just looking to your eyes!
Just looking to your eyes...

So here I am right now
I'm looking at you now
My feet are floating
And I never touch the ground
Drowning in you arms
Anxiety comes out
So come and fly with me

So why don't you just fly with me again
To my wonderland, meet again
I'll sleep inside your arms and waste my time
Just looking to your eyes!
Just looking to your eyes...

To my wonderland!
Looking to your eyes...

So why don't you just fly with me again
To my wonderland, meet again
Sleep inside your arms and waste my time
Just looking to your eyes!
Just looking to your eyes...

So why don't you just fly with me again
To my wonderland and meet again...
