It's too late for me to survive  
It's too late for me to survive  
It's too late for me to survive  
It's too late for me to survive

How can I live when I can't breathe  
Because you stepped into my threshold  
Get code red  
You said you were my friend why don't you wait for me  
You left me for dead while I could not see  
You pray to your religion like a frequency  
How come my enemy be all that i'm a need  
Cause you got me hooked what do you do with me  
Because it's too late too late too late for me

Too late too late for me (survive)  
Too late too late for me (survive)  
Too late too late for me (survive)  
Too late too late for me

It's too late for me to survive  
It's too late for me to survive  
It's too late for me to survive  
We don't wanna play that way because I crucify myself  
??? ???  
It's too late for me to survive  
We don't wanna play that way because I crucify myself  
??? ???

How can I live when I can't breathe  
Because you stepped into my threshold  
Get code red  
You said you were my friend why don't you wait for me  
You left me for dead while I could not see  
You pray for stupid things like a frequency  
How come my enemy be all that i'm a need  
Cause you got me hooked how could you deal with that  
Because it's too late too late too late for me

Pressure weighing on me  
Deamons in my head need to be set free

Pressure weighing on me  
Deamons in my head need to be set free  
Pressure weighing on me  
Deamons in my head need to be set free  
Pressure weighing on me  
Deamons in my head need to be set free  
Pressure weighing on me  
Deamons in my head need to be set free  
Pressure weighing on me  
Deamons in my head need to be set free

It's too late for me to survive  
It's too late for me to survive

Because a pressure dropper makes you wanna slip  
Another page inside my notebook gets ripped  
The plot I once wrote  
Has apparently been flipped  
Thought I had a grip  
But apparently it slipped  
I lost focus that I gained through a scope  
Lost the last of my hope  
In a knot and a rope  
It's a straight case result of a need for danger  
First come the Detox then come the anger

Too late too late for me too survive  
Too late too late for me too survive  
Too late too late for me too survive  
Too late too late for me too survive
