Tonight we'll be watching stars fall down,
I can't wait to see you and see your smile
And be with you day and night,
Believe me there's nothing I can do...

We'll fall asleep, wait 'til the sun comes down,
Remembering those times we felt alive,
So hold me close so close to you
Don't let me fall, hold me one more time.

We're just in time,
I need you here.
Missing you...

I wish I could start over again
And write this whole story once again,
Of me and you just so in love,
We'll end up so happy in the end.

Now wait by the phone to take your call,
To tell you that I just need you more,
So please come back right to my arms,
We'll end up so happy come back now...

You're just in time,
I need you here.
Missing you...
