Changes everyday
This time's much better
There are angels in the sky
Falling forever falling together
As we watch the skyline rise again...

Hold my hand dear don't let me fall again
Wait for tomorrow...
Oh don't let it fade away
Hold my hand dear don't let me fall again
Wait for tomorrow...
When the sun go let me fall again (So far away)
Was supposed to last forever, but you're (So far away)
Well, it isn't getting any better,
I'm yours...

It changes everyday
This time's much better there's someone in my mind
And I'm holding her forever...
Hold my hand dear don't let me fall again
Wait for tomorrow,
And the sun go let me fall again...

Hold me in your arms,
Sing me this thing tonight
Wish inside a dream
Sweetness got in between (So close to me)
This will last forever
But you're (So close to me)
This is getting better
I'm yours...
