

Insolence "Revolution"

Visit "[Revolution](#)" on MotoLyrics.com

We back down on no condition
We'll stand aside on no condition
We can't back down on no condition
We'll stand aside on no condition

We be the last crew standing
While the earth is drowning
Revolution is the sound surrounding me
No opposition, one love is our mission
All of the haters can not know what we're dishin' out
I'll show you what this world is about
We stick together, we can work it all out
See, 'cause we will never die we just multiply,
We come together with fat sacks and bloodshot eyes

We back down on no condition
We'll stand aside on no condition
We can't back down on no condition
We'll stand aside on no condition

You better run and don't stop, you know we're coming
Back again 'cause you know my crew comin' through
And you know that we're the champions
Worldwide don't hide this is the time Babylon tell you
that
Ganja be a crime No! We comin' through paid dues we
show
And prove again I grab the mic and then blast it right
through
Again to show the revolution still be alive I give my
praise to
JAH, emperor Salasie

We revolution, we revolution, we revolution, we
revolution
We revolution, we revolution
I'd rather die, I'd much rather die than live my life upon
my knees
Than have to live a lie why?

I'd rather die, I'd much rather die than live my life upon
my knees

Than have to live a lie why?
For everything in life that i refuse won't have to be lied
to, hated,
'Cause of someone's suffering, well I'll be there and I
will always care
My crew will stand the test of time so you should all be
aware now

We will infect coming live and direct
We are an army that demands much respect
To all the fools who choose to neglect
What we will come till you come, come correct
We're the elite, march to different beats
Infect your power station, then press delete
And we won't stop until the circle's complete
And words of revolution cna be heard on the street now

We revolution, we revolution, we revolution, we
revolution
We revolution, we revolution
I'd rather die, I'd much rather die than live my life upon
my knees
Than have to live a lie why?
I'd rather die, I'd much rather die than live my life upon
my knees
Than have to live a lie why?
For everything in life that i refuse won't have to be lied
to, hated,
'Cause of someone's suffering, well I'll be there and I
will always care
My crew will stand the test of time so you should all be
aware now

I'd rather die, well I'd rather die, well i'd rather die, i'd
much rather die
I'd rather die, well I'd rather die, well i'd rather die, i'd
much rather die
