Acting unsuspectingly, I made you my greatest dream.  
No need to worry.  
Midnight stalker in the midst didn't mean to make you  
pissed.  
You're all I wanted.  
Now you know me well.  
Didn't mean to make me bleed. Things are not the way  
they seem.  
Suicide'll kill ya.  
Thinking pathologically: All is safe except for me.  
I'm antagonistic.  
They won't find out what I've done. They'll all think I'm  
having fun.  
If they find out what I did, mercy me. Heaven forbid!  
I'll never speak to you again.  
Now I know you well.
