Get money, get fly, get busy, get live
Get over, get by, get women, get high, get right!

Think you can stop us, really? Then niggaz got to feel
me
Peel out Suzuki's, make those Kawasaki's pop a wheelie
'Cuz only I could hold me, V.S.O.P. control me
Better watch those rollies, yo, we crash spots, warn the
police
You think you know me, cool as Coolie High, co-chief
Roamin' the streets, black like no justice and no peace
Keepin' the pace, not gon' lose my place, in this paper
chase
Smell this pie we bake, make your plate, take a taste

Make no mistakes, though some toes gettin' stepped
on
My name is Tephlon, hook 'em like it's methadone
Whenever the record's on, set the bomb, test my arm
I'm never alarmed, the best are harmed when the
pressure's on
Back on the block, pull up on the spot, drunk's pop
Once a drop, echoin' through ghettos like gun shots
Pull out that twenty spot, what we got's above hot
Killa Beez, we run shop, runnin' from the top, it goes

Get money, get fly, get busy, get live
Get over, get by, get women, get high, get right!

Listen, baby, work your dance, to this verse I chant
Victim of my circumstance, get at me first chance
Bet it's a short deal, good, like how ya'll feel
Ditech, it's all wheel, gonna make 'em all kneel
Givin' the play, million shipped today, who got shit to
say?
Poured it in Broadway, check me out in the big display
That's overlookin', Bronx, Queens, Brooklyn
Staten, Manhattan, wherever there's a hood in

I dig my foot in, men of honor like I'm Cuba Gooding
You was bookin' when they jumped off, but who was
lookin'

Via satellite, I broadcast the fast light
That's right, pass the mic, load me up, I'll crash it tight
When in the zone, I lose it, I'll put them blown in fuses
There's no explainin', no escapin' and no excuses
Move if you true, the kid is due, let my niggaz through
Gettin' physical and the streets continue to

Get money, get fly, get busy, get live
Get over, get by, get women, get high, get right!

Ya'll, and that's right ya'll
And we ain't goin' no where, it's all night ya'll
I love my ladies with jeans that fit tight ya'll
For all my fellas on bikes with chrome pipes, ya'll
Ya'll from the north, west, south to the east side
We really don't mind, we rep each side
Haters get mad, they left outside
You feel what I feel, then come inside

The eyes like David Caress, so check my following
Move with The Movement, that's your only option
My coalition, all in position on this mission
No quittin', slowly inchin' closer to this vision
Won't you listen, couldn't inflict your system with
conviction
Stop your bitchin', hard times is all you're gettin'
See the fire in my eyes, desire in my vibes
Liar in disguise, never measure eye and eye

On any of us, what, bounce, before you get touched
The town's not big enough, give it up, get it shut
Down like Studio 54, you know that this be raw
You know that this be war
I'm ahead of the game, why lose, it's better to gain, no
darts
Are ever the same, Deck's my name, I never changed
On the road to riches, out to foe the snitches
I roll wit chicks who pose for pictures, they rich and
hold the figures

Get money, get fly, get busy, get live
Get over, get by, get women, get high, get right!

Get right!
