[chorus: sample, (inspectah deck)]

The power of god's in you (show and prove)

The power of god's in you (show and prove)

The power of god's in you (show and prove)

True, the time has come through

Chose the few, must show and prove

[intro: inspectah deck \*in the the background of the chorus\*]

Yea, this is the power, true power

Showin and provin

[inspectah deck]

I once asked God to forgive for my sins

Bent on my knees pleadin to be heavenly cleansed

Said the holy ghost changed the ways and actions of men

When I stood, I felt the same as if I just walked in

I was twelve at the time, held nines, held mines

A frail mind, criminal thoughts well-designed

Then the older gods put me on, on how to rock this

Maintain, 360, lord and live prosperous

His jewel was priceless, keep the cypher righteous

Bare in mind, god, some of your own won't like this

I'm mentally scarred, recooperatin from abrasure

Fooled by interpretations made from a traitor

It's in my nature, I was taught, that's the first law

Obtain the food, clothin and the shelter that I search for

The fire in my eyes is hot as earth's core

What hurts more, the fact that we still dirt poor

In hard times force crimes out of honest man

And most fiend to see the so-called promised land

Sun of man, knowledge, wisdom and understand

That it's time to take matters in our own hands

[chorus]

[inspectah deck]

The wicked ways of the world can't escape sin

I'm facin masses gun on the plantation

Seen source from home yet I'm still caved in

'cause 9000 miles is such a long way to swim

And many die tryin to survive the next mile  
Famillies was raised as slaves and exiled  
I learned it as a child, knowledge be the key  
To unlock your brain and set your mindstate free  
It's true, the times come through, chose the few  
Show and prove, the power of god's in you  
Or remain a savage in pursuit of happiness  
Who lacks jewels, love and peace completes the  
package  
The fact is five out a hundred know the truth  
The wisdom might blow the roof when shown and  
proved

[chorus]

[inspectah deck]

Through the course of time, we was dumb, deaf and  
blind  
Now we on the incline, build with one mind  
Came a long way, but, yo, we still far behind  
So, uplift the mind, god, rise and shine  
I speak to the black-bellied yellow seeds  
My fellow breed all races, colors and creeds  
Search for the knowledge, use science and math  
And be queens and kings like the centuries past  
The devil tried to fool my people, said we was equal  
But I believe him when my culture sees freedom  
You beat 'em with the positive thoughts, you don't need  
em  
Leave him in the dirt, let the blood suckers see him

[chorus to fade]
