"Close To Nothing"

I can't help it if I found
Some way for me to get around
Thinking that I'm still not over you
Two years we had a lot of fun
But now its over and its done
Don't think I'll ever feel it again
Cause all I ever wanted was to be with you
It's something I've not lately had the chance to do
And now I don't mean much to no one

And I'm left with close to nothing
All I ever wanted was you
I can't help it if I see
On some other wavelength
It's just that time has ripped it away
And when I try to let it go
It always takes me to a low
And It only goes to show
You're all I need-Yea You
All I ever wanted was you
