You shake my shoulders, you shake the earth
You shake my life for all it's worth
I rack my brains, I roll my eyes
Don't give me time to realize

Irresistible force, irresistible force
Irresistible force, irresistible force
Irresistible force brings me back to you

You shake my shoulders
You shake the earth
You shake my life for all it's worth

Irresistible force, irresistible force
Irresistible force, irresistible force
Irresistible force brings me back to
Irresistible force brings me back to
Irresistible force brings me back to you

Irresistible force, irresistible force
Irresistible force, irresistible force
Irresistible force brings me back to you

Bring me back to you, bring me back to you
Bring me back to you, bring me back to you
Bring me back to you, bring me back to you
Bring me back to you, bring me back to you
