I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine

Youve got to push it to me baby
Slide it to me honey
If you want my money
Youve got to make it good as honey

I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine

Now you've got me grooving
Just keep on moving
The beat is really soothing
The more you keep me moving

I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine

I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine

Oh baby waste me baby waste me
Taste me baby taste me
Space me, Space me

I got my mind made up come on you can get it

Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine

Now youve got me grooving
Just keep on moving
The beat is really soothing
The more you keep me moving

Give it to me
Give it to me

I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
I got my mind made up come on you can get it
Get it girl... anytime... tonight is fine
