Id like to think about
Everything youve said and done
But you sold yourself
Youre fucking dead

So whats the point of talking about the past cause that
was then

This is now
Now your gone
Every trigger to every gun
All your convictions fired in vain

That was your shot
This is ours

Well make the best of better aim

One shot
One mistake

Only one thats all you fucking get
Another fucking trend
Another fucking year
Ill Be here

Were still here

Another fucking trend
Ill be here
Another fucking year
Im still here
