"Are You Happy?"

Are you happy? Are you happy now?
Poised for branding, too weak to know your faults

Tell me when your wishes fall apart, do you turn to
nothin'
Tell me why I wait to play the part, c'mon

I did my best to fall apart and take you all with me
To say the utmost from my heart than beg you all to
stay
I did my best to fall apart, please take it
Are you happy? C'mon and tell me now
So proud you're standing, too weak to know you're
gone

Tell me when your wishes fall apart do you turn to
nothing
Tell me why you wait so long to start, c'mon

I did my best to fall apart and take you all with me
To say the utmost from my heart than beg you all to
stay
I did my best to fall apart, please take it all, please take
it all away

I said I don't like the way you say
"I can't believe I had my day and I should go away"
Well not today

I did my best to fall apart and take you all with me
To say the utmost from my heart than beg you all to
stay
I did my best to fall apart, please take it all
Are you happy? Are you happy now?
Are you happy? Are you happy now?
Are you?
