Bearing all your weakness on your own
Thinking that you're out there but not alone
Waiting here for god to save your soul
When war is the only peace that you'll ever know

Still I remember times when we were trying
As you're dying, oh yeah, I've found everyday
I'm bound to my words and fate
Fucking, kill me, please don't hesitate

Here we are, we're back here again
Pretending that we get along and can all be friends
Well, I don't care what you might think
We're gonna die, so let it be

As I remember times when we were trying
Oh yeah, I've found everyday
I'm bound to my words and fate
Fucking, kill me, please don't hesitate

As I'm falling away, so hard to stay
I'm falling away 'cause it's so hard to stay

God doesn't care if we blow up the fucking world
He just wants to fuck all the pretty girls
He says that I'm full of shit, well, he's a fucking
hypocrite
'Cause I know what I know

I know what's wrong and right
I know when it's my time to fight
And I know he don't care anymore

Hey, take me there, make me care
Take me higher than the sun
'Cause I am the one
I am the one to blow up the fucking world
