

Instruction "Lean On You"

Visit "[Lean On You](#)" on MotoLyrics.com

Sad that I feel that we're wasting away 'cause you don't care

Every time someone pulls the trigger I say, "I told you"

Everyone can tell that we're killing ourselves lately, everyday

Why can't you see it that way?

Well I just want you to say

Hey, will you let me know where I gotta go?

Hey, will you let me go where I gotta go?

Hey, will you let me know where I gotta go?

Hey, will you let me?

How many times till you take them away? I'll scream all day

Helpless death and the hopeless life, don't we feel forsaken?

Everyone can tell that we're killing ourselves lately, everyday

Why can't you see it that way?

Well I just want you to say

Hey, will you let me know where I gotta go?

Hey, will you let me go where I gotta go?

Hey, will you let me know where I gotta go?

Hey, will you let me know, know?

I'm leanin' on you, leanin' on you

Yes, I'm leanin' on you, leanin' on you

'Cause I'm here

Will you let me know where I gotta go?

Hey, will you let me go where I gotta go?

Hey, will you let me go where I gotta go?

Hey, will you let me know, know?

Leanin' on you, leanin' on you
