I've broke away from a lot of things
That I thought would improve my life
But the one thing that I'm sure of
Is my love for Jesus Christ

Big car, big house, big bank, but still empty inside
I may not be a superstar but there's some things
money can't buy
A carefree attitude is what I leave the house with
everyday
Because I know if mountains come

They'll be moved from my way
I believe in Him with every ounce of faith in me
All my chains will break and I will be set free
Because He is the one

I'm guaranteed to have fun
If problems come
I will not run
No damage will be done

I'm guaranteed to have fun
If problems come
I will not run
No damage will be done

I go on with my life and let Him live through me
Try to set good examples so outsiders can see
You don't have to find your answers
In the smoke from a toke

'Cause Jesus Christ my Savior is the only way to go
I know when I die I'm gonna leave this chunk of dirt
And go to a place with streets of gold
Like nothing seen on earth

You can sit and cry or you can come with me
All you have to do is ask of Him and He will set you free
