Is this now the stage you need  
For you to wage your war where  
You've been cast out by your god  
Who no longer cares at all

Is this what feeds you  
Seeing us fighting for air  
Into dark season  
Threads of humanity you tear

Pretence is, one of the weapons  
By which you choose to fight  
Prophecies of the fallen angels  
Now finally come to light

Is this what feeds you  
Seeing us fighting for air  
Into dark season  
Threads of humanity you tear

So your jealousy  
Drove you on  
Your values confused  
Between right or wrong

Is this what feeds you  
Seeing us fighting for air  
Into dark season  
Threads of humanity you tear

Is this what feeds you  
Seeing us fighting for air  
Into dark season  
Threads of humanity you tear
