Now god wields a new surprise  
Thrown upon this earth in order to make the difference  
Destined to become the saviour  
Diffuse our destruction in Heaven and on Earth

I stand with you Danyael, I won't see us fail  
We stand with you Danyael, we will prevail

Will you Follow  
As our army grows  
You are, Our Last Hope  
Now Heavens torn  
Engaged Mankind in War  
We are, Our Last Hope

Clouded vision hides their destiny  
Lucifer's smile at this Angelic cacophony

We stand with you Danyael, we will prevail

Will you Follow  
As our army grows  
You are, Our Last Hope  
Now Heavens torn  
Engaged Mankind in War  
We are, Our Last Hope

Danyaeal you fight for all mortal kind  
Your energy will burn the Seraphim's desire  
Born of Earth and Heaven, Nephilim Saviour  
Defeat the enemy with Gabriels, Whisper...

Pyriel waits for you, your fate is in his hand  
Holy Battle flares brighter than ever  
For the future of our world  
Strike the final decisive blow

Will you follow...
