By Cover of night she taunts you  
Mysterious eyes to sink into  
What are her plans toward you?  
She covets lies to hide the truth

She Breeds a new kind of lie,  
And in your dreams she mystifies  
She slays them all with just a smile  
Her body is sex personified

So don't let down your guard  
Weakness has gone too far  
The Temptress knows the time is right  
Already seduced you've crossed the line

A single sigh suddenly, breaks the silence  
A gasp of breath and then  
You know it's too late  
As her perfumed body closes in

She Hunts for you (Temptress)  
She Wont let go (Till she is done)  
She lives for you (Temptress)  
She Won't let go

She continues to draw you in  
Surface the feelings held within  
She takes her role to the extreme  
Whilst you reflect, why me?

Twisted fascination drives you on  
Laughter and promise of her love  
You wonder what she wouldn't do  
Her dark desire, possession of you

A single sigh...

She Hunts for...

Why was I so weak and selfish  
When all I had to be was strong  
You broke down my defenses

And left me all alone

You were the weak one  
You made my role so easy  
So I took all, that you had to give  
Bleed now my broken Angel  
Your wings are surely clipped  
I turned your life around  
And now she can't forgive

A single sigh...

She Hunts for...

The wolf chases you (Temptress)  
She hunts you down, (now you must run)  
She's taunting you (Temptress)  
She has it all
