You say that your life sucks, you have so much to  
complain about  
Slaves in a factory and you see no way out, must your  
son follow your footsteps?  
Must your daughters follow her mothers?  
You had to give up you dreams, will your kids have to  
do the same?  
Slaves in a factory!  
Working class pride or working class shame?

The bitterness has made you angry so you hurt the  
ones you love  
Punish those you stand next to you but do nothing  
about the ones who suck your blood  
Direct your anger!  
Direct your anger!  
Don't be a slave for the rest of your life
